# THE POSSIBILITIES ARE ENDLESS WHEN YOU BEGIN TO STUDY.

It is natural for human beings to fall into a routine. But when routines lead to close-mindedness and a lack of innovation, we aren't able to progress as a society. This is when it's necessary to search for opportunities that enable us to break free.

This annual report is a journey that explores education as that opportunity, enabling youth to break free from the shackles of unfavorable socio-economic circumstances and soar towards their dreams.

# LETTER FROM THE MANAGING TRUSTEE

## Hope for the Children in Dholka,

Dear Friend,

Dholka, a city in the State of Gujarat, has been affected not only by the poor quality of cultivable land but also by the high number of children growing up homeless and in extreme poverty. Dholka Alliance Hostel and School has served this community for 117 years. Amid all the poverty, a little drop of hope fell on children's lives in the midst of India's water crisis that communities have faced over the years. It started in 1904, in the wake of the drought in Gujarat, when Alliance missionaries from North America founded the Dholka Alliance Hostel and School. There wasn't enough food and farmers lost their harvests – like several communities are experiencing in current days. During that time, missionaries and local leaders reached out to families with the desire to help them. What missionaries found in Dholka was a dramatic situation. There was no institute or school for the children and many of them were poor, orphans or semi-orphans, living out on the streets. With no one to care for them, children hardly ever got the opportunity to study and have a better future. The first thing the missionaries did was to bring children from the surrounding areas and provide them with food and a place to live.

Today, there are many students from seven to 15 years of age in the Dholka, GUJARAT SYNOD CHRISTIAN EDUCATION TRUST, Hostel and School. After they graduate, many hold high positions in companies and offices, a rain of blessings is falling on the lives of these girls and boys for the glory of God.

This academy year, Dholka Alliance School has more than 180 children enrolled. The orphan and semi-orphan children are the very heart of the mission. There are more than 80 children staying in Dholka hostel, with all the facilities such as food, clothing and shelter. Though all come from abandonment situations, they are now part of this family, rescuing the value of their identity and being treated as beautiful creations of God. Along with their education, they also have lessons of morality and spiritual discipline. Through one family whose children were staying at the hostel,

Management invited school's students to come back to the school to receive care, study, food kits and a message of encouragement. They hope to be able to reopen in 2022 June and continue to help each of these children grow in their faith and follow their own unique dreams, passions and talents.

Yours Truly,  
Milton G. Roziya

# Teacher's Day

**On Every 5th September School celebrate  
Teacher's Day.**

1. A teacher is a person who helps children and other person to learn and progress in life.
2. A teacher takes the responsibility of shaping the lives and career of his students.
3. They feel pride and honour to direct their students on the right path of the life.
4. A good teacher never does any kind of partiality among his students.
5. A good teacher always helps to become a good person or a good citizen in our society

## SCHOOL HEALTH PROGRAM

Good health is a prerequisite for national development. Health and education are basic provision for children. Schools create a unique opportunity to improve both the education and health status of learners throughout the nation. This initiative is targeting both Education and Health implementers and is envisaged to facilitate an integrated approach to health programming and more effective learning at the school level.

# VISION, MISSION AND VALUES

## MISSION:

To educate and empower under-privileged Children and support them..

## VISION:

To do our best so that the current generation of underprivileged Children living below the poverty line integrate seamlessly into main stream society.

To impart quality education, and all round development, including skill building, in order to provide avenues for employment that are suited to every child's dominant intelligence and strengths.

## VALUES

Compassion Integrity Empowerment

## WHAT WE DO

### **Break Free.**

These two words are the magic mantra that unleashes transformation. They are the prime drivers of innovation, the major motivators to question the status quo and take control of our own destinies. In modern societies, the most powerful weapon for breaking free is education. Every individual deserves access to education, regardless of circumstances. That is why the Gujarat Synod Christian Education Trust prioritizes the support for education in underserved communities, particularly for youth and girl children.

The COVID pandemic has played havoc with the educational opportunities available to these communities. There have been prolonged school closures with the traditional classroom model being replaced by online classes. It is a harsh reality that quality e-learning is restricted to the small population that has access to the internet and technology. For others, the pandemic has deepened the digital divide. Education has come to a standstill for the vast majority, who cannot afford even basic digital resources. One can envisage an education crisis for many, especially girls who will be forced to drop out of school.

We at Gujarat Synod Christian Education Trust, will tackle these inequities with determination by providing girls and youth from marginalized community's access to financial assistance, technology and quality education. We will do everything in our power to pave the way for these young people to transition effortlessly into the digital economy of tomorrow.

Together with our partners, we can and will break free of every challenge.

# EDUCATION TOUR

**Why you need to think of going on an educational trip**

- 1. Effective learning from real-world experience.**
- 2. Better chance for exchange of ideas.**
- 3. Personal development.**
- 4. Enhanced perspective of the world around.**
- 5. Better networking skills**

An educational tour offers students of all classes an opportunity for a rich immersion experience. While an educational tour is great fun, it differs from a vacation. Typically led by a teacher, such trips provide invaluable global learning. On an educational school trip students experience culture first hand. Students come to appreciate parts of the world on a much deeper level than they ever could in the classroom. Students converse and socialize with local people, which broadens their perspective greatly.
